AQUA BY ROSA GRES: UNIQUE SOLUTIONS FOR UNIQUE POOLS

Rosa Gres is a company specialized in manufacturing **porcelain stoneware solutions for pools, wellness-spa centers and terraces.**

With more than 40 years' experience, we cooperate with **projects from all over the world:** Olympic pools, sports clubs, private pools, hotel pools and wellness centers.

Our focus on **innovation + design** has revolutionized the technical and esthetic universe of pools with practical and thought-provoking concepts such as:

Aqua, the specific range of pieces and colors for lining competition pools. With pieces to cover everything from the deck to the pool tank. Designed and manufactured in accordance with the sector's strictest regulations.

Technical solutions for building all kinds of pools. With construction systems for deck-level pools and many different trim pieces.

Anti-slip finishes that are extremely safe thanks to their suction effect. They are pleasant to touch and easy to clean.

Innovative **porcelain stoneware grids.** With perfect drainage and heightened esthetics.

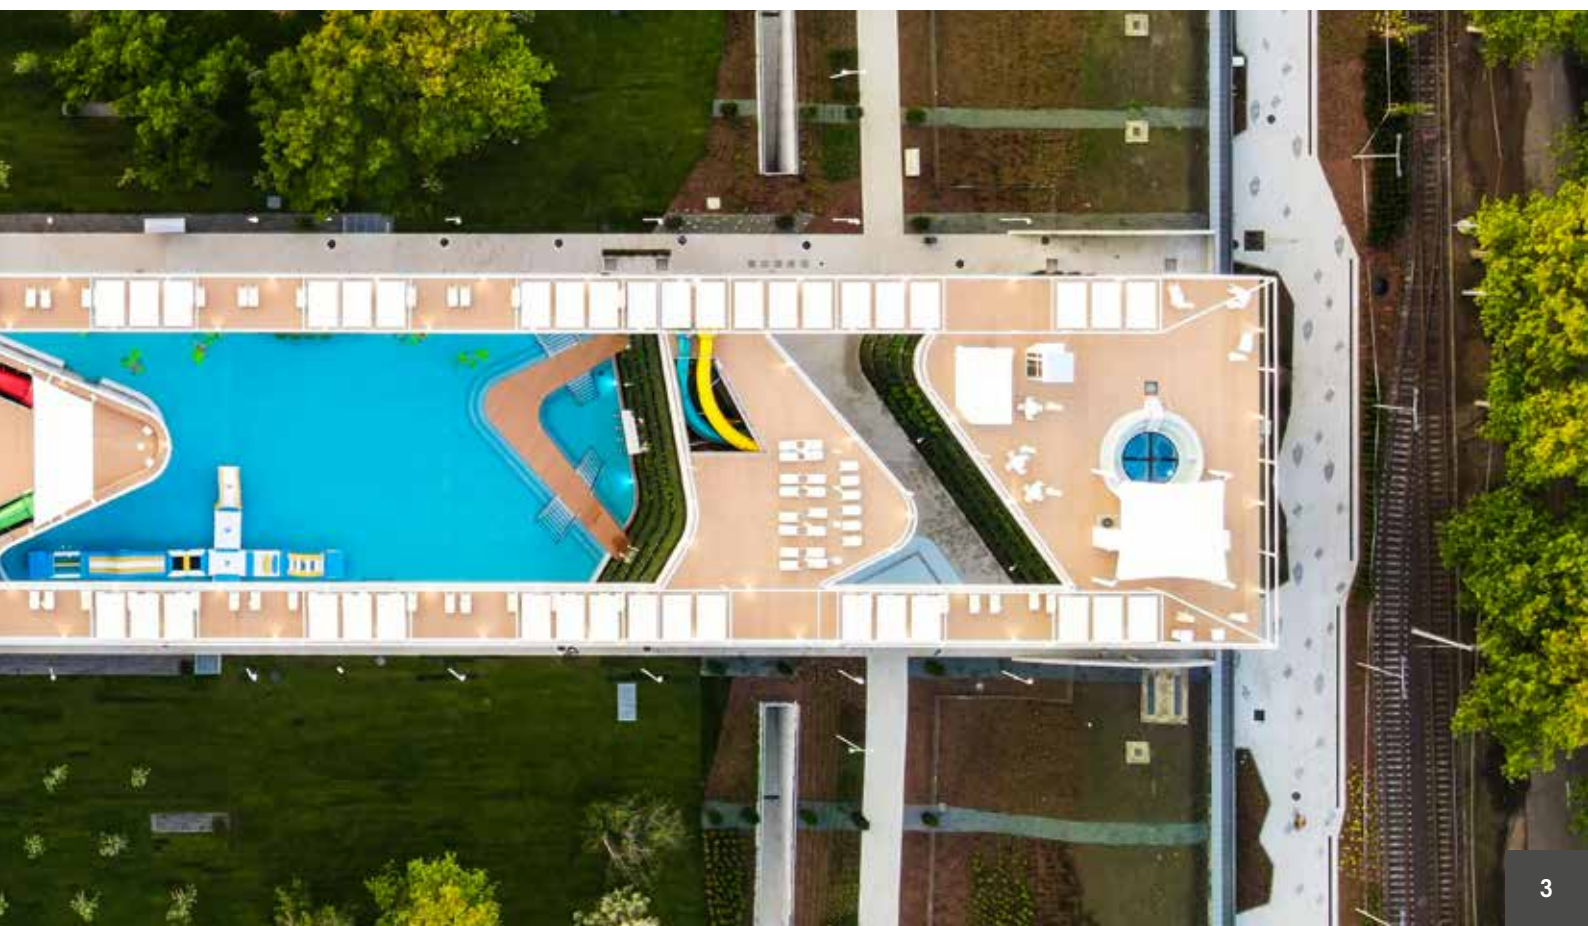

Wide range of colors and textures. They make it easier to create personal designs that help the pool seamlessly blend into its surroundings.

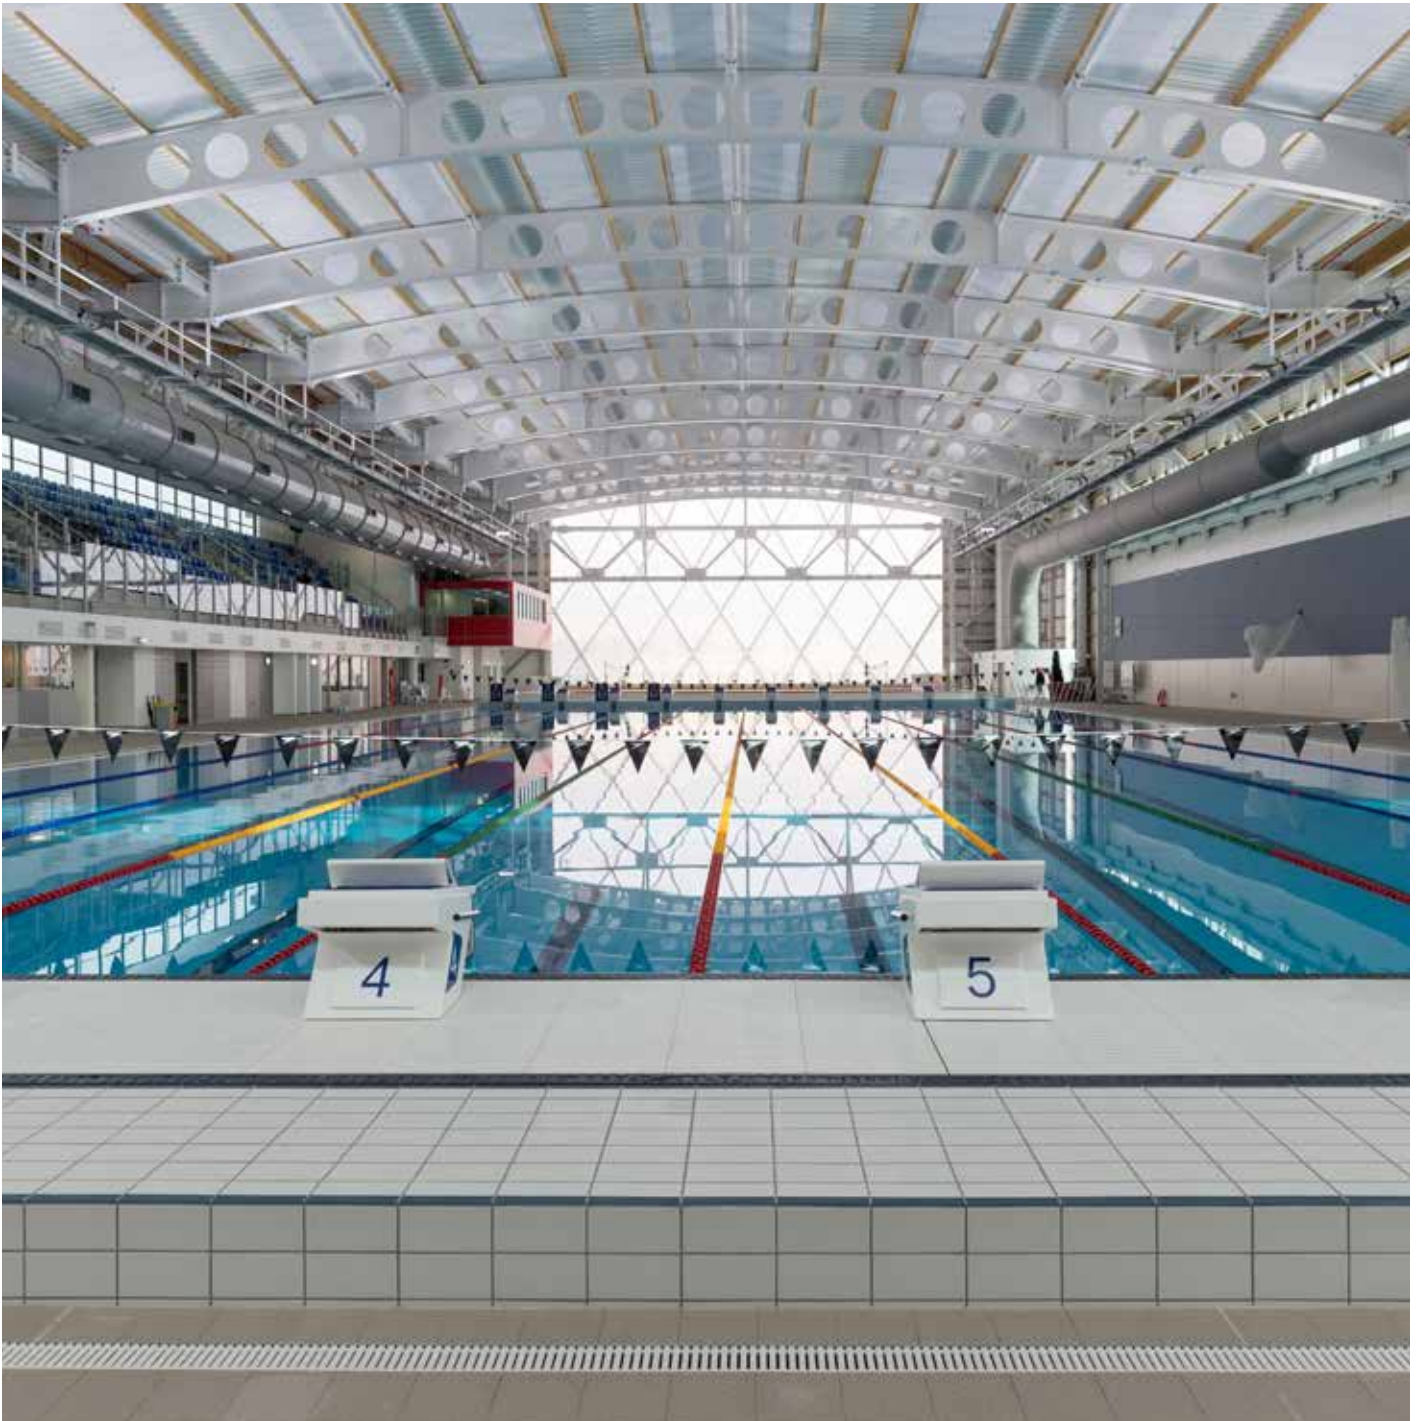

Indugres. Our **antibacterial porcelain stoneware.** Perfect for changing rooms.

BIM tech. We work on our projects using our very own BIM objects to better visualize them with hyper-realistic precision.

We help achieve **Zero maintenance** facilities.

We hope this catalogue inspires you to create wonderful projects where water takes center stage.

Spa System

Created to simplify the construction of deck level pools with mosaic, both public and private. Its main advantages are ease of construction, low cost, speed, reduced space and the vast range of colour combinations.

Sealing grout

BIO-CERPOXI WHITE / 22,5 KG/U
BIO-CERPOXI GREY / 21 KG/U

Coloured epoxy resin resistant to acid and with protective properties: prevents the growth of harmful microorganisms.

Biostop (tiles and grout) complies with the ASTM E 2149, JIS Z 2801 Antimicrobial efficiency regulation and ISO-22196.

Why choose Biostop?

IT WORKS 24/7: INSIDE AND OUTSIDE

Biostop does not need light to activate its self-protection properties: it works with artificial light, natural light and even in complete darkness.

COMPLETE AND PERMANENT PROTECTION

Biostop's protection is permanent and 100% safe. It doesn't require any subsequent treatment or maintenance to have an effect.

PROVED EFFECTIVE AGAINST BACTERIA

Biostop completely stops the spread of bacteria such as Staphylococcus aureus, Escherichia coli, Proteus vulgaris, Salmonella Typhi, Enterococcus faecalis, Streptococcus pyogenes, Bacillus and Listeria monocytogenes.

HIGH-QUALITY INDUSTRIAL PORCELAIN STONEWARE

The manufacturing process behind Biostop ensures it retains all the properties usually associated with Rosa Gres industrial porcelain stoneware.

IT IS NOT HARMFUL TO HEALTH

Biostop is non-toxic.
It is completely harmless to human health.

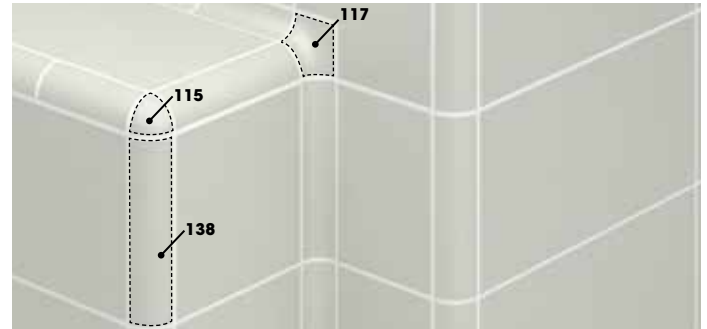

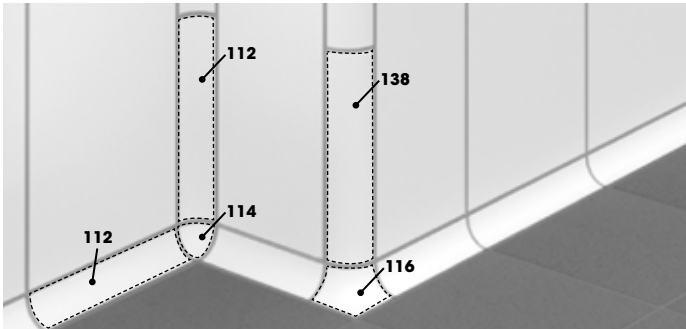

IT REDUCES SMELLS

Biostop prevents bad smells that can be caused by micro-organism deposits on the surface.
